

Education
Lesson Plan Form II

Name of Activity: _____

Curriculum Area:

Objectives: (What learning do you want the children to demonstrate?)
(3 part objective – Condition – Behavior – Criteria for success)

Standard:

Materials: (Be specific and complete. Include even things, which may seem obvious.)

Procedures:

Pre-assessment: (What prior knowledge or skills do the children have in relationship to the activity. Ex. Can the children use scissors well?)

Anticipatory Set:

Motivator: (Attention getter)

Activity Sequence: (Step by Step)

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

Culminating Event: (Technique or activity to provide closure, reinforcement of activity or review and preparation for next lesson)

Reinforcement Activity: (Activities are assignments used to provide reinforcement)
(Provide specific directions)

Adaptations:

- What adaptations could be made to project for students who do not have all the skills necessary for success of activity or require remediation

- What will be provided for students who excel or complete task early

Assessment Techniques:**Reflection:** (Evaluate the success of the activity)

This section will be completed after the lesson. The teacher will use this reflection as an assessment / evaluation of the teaching/learning process.

Did the children meet the objectives?

How do you know? What evidence do you have?

What was the best part of the activity?

What could you improve upon next time?

What can you do as an extension of this activity?
