

Dental Assistant

Dental assistants are an essential part of the dental care team, supporting both patient care and office operations. They work closely with dentists to ensure efficient, high-quality care in a fast-paced clinical environment.

In this program, you'll learn how to assist during procedures, provide patient support, manage office tasks, and perform basic laboratory work. You'll also gain hands-on experience through in-person instruction and a supervised internship in a dental setting.

If you enjoy working with people, have strong attention to detail, and are interested in a career in dental healthcare, this program can help you get started.

We're here to answer your questions and help you take the next step towards your healthcare career. Contact us for program start dates, schedules, admission requirements, and additional information.

Program Length: 30 weeks
Including 200 internship hours

Program Cost: \$6,864
Some programs require additional expenses that may include background clearances, health documentation, uniforms, supplies, certification exams, and other program-specific requirements.

This program may be eligible for financial aid to qualified students. Contact us about eligibility and to apply.
