

## **EARLY ADMISSIONS FREQUENTLY ASKED QUESTIONS**

1. ***What is Early Admissions?*** Early Admissions is for high school students who are academically ready for college and want to take college courses on campus or online.
2. ***What are the benefits of the Early Admissions?*** By participating in Early Admissions, students have the opportunity to earn college credit at RACC's significantly lower tuition rates than many 4-year institutions, helping reduce both the cost of college and time to degree completion. Students stand out on college applications with an official college transcript with demonstrated experience in college-level coursework. Students complete general education college courses while still in high school, reducing the number of courses needed after graduation.
3. ***Do I have to apply to the college to register for an Early Admissions course?*** Yes, first time students must complete a free, online application which can be found through the link below. Be sure to select option 8 when applying. Returning students do not have to apply to the college again. [Admissions: Early Admissions for High School Students | RACC](#)

Students will also have the option to complete RACC's placement test to determine eligibility.

10. ***Will my credits transfer?*** As a general rule, RACC college level credits do transfer to other institutions.
