Phlebotomists are trained to take blood from adults for a variety of procedures including medical procedures, tests, transfusions, and research. EKG training allows you to administer tests to record and analyze electrical impulses transmitted by the heart. You’ll learn the medical terminology and laboratory skills you need to be successful in a new career. New classes start every 6 weeks!

**How long does it take to complete?**
The program is broken up into two 6-week modules. The hands-on externship may take 6-10 weeks to complete.

**What does this program cost?**
The cost for the program is $6050.00

**Are there additional costs?**
Yes. You will be responsible for the cost of books and supplies which includes the purchase of scrubs and appropriate shoes. Estimated fees $850.00.

**Is financial aid available?**
Yes! You can apply for FASFA. Help with completing the FASFA application is available in Berks Hall Room B106. No appointment necessary.

**Are there scholarships?**
Yes! You can apply for the Mae W. Langan Scholarship. Scholarship applicants must apply for FASFA in order for your application to be considered.

**What are the requirements?**
High School Diploma or GED and age 18 or older.

All students must pass the Adult Placement Indicator (A.P.I.) test or provide a college transcript showing one college level English class with a grade of C or better.

**How do I take the A.P.I. test?**
We administer the test in Kratz Hall, on the 3rd floor at the following times: Tuesday mornings, Wednesday early afternoons, and Monday, Tuesday, and Wednesday evenings. The test is scheduled for 25 minutes. Contact us at 610-375-8818 to schedule your test.

**How do I register?**
Once you complete the A.P.I. test, you’ll need to gather these documents:
- Government issued photo-ID
- Criminal Background Check
- Copy of your High School Diploma or GED
- Proof of Medical Insurance

Next, you’ll be connected with an advisor to get the registration process started.

**What classes will I take?**
The first 6-week module consists of Health Care Skills I, Intro to Computers, Intro to Insurance, Medical Terminology I & Anatomy, Medical Office Procedures I, Pre-Clinical Phlebotomy I & Basic Life Support. 134.5 hours.

The second 6-week module consists of Health Care Skills II, Word Processing I, Human Diseases & Disorders and Pre-Clinical Phlebotomy II. 100 hours.

The third module consists of Intro to Collecting & Outpatient Department, In-House Collecting I & II, Emergency Care Collection, and Independent Specimen Collection in conjunction with your externship. 210 hours.
